ITINERARY

El Valle Oscuro is well known for its beautiful quiet countryside and its villages. If you like to walk there is a route “ La Ruta de los Colores del Valle Oscuro”, (The colours route of the Shady Valley), begins in Tresgrandas, where there are various examples of traditional architecture, very much the same as in all the villages along the route, where wood and stone are the predominant materials used. Galleries and corredores (glazed balconies) add to the beauty of the facades of these typical rural houses. Other historical elements are the church of San Juan (St. John). The route is 13.000 metres long.
